## **ABOUT IEEE**

The Institute of Electrical and Electronics Engineers (IEEE) is a professional association with its corporate office in New York City and its operations centre in Piscataway, New Jersey. It was formed in 1963 from the amalgamation of the American Institute of Electrical Engineers and the Institute of Radio Engineers. Today, the organization's scope of interest has expanded into so many related fields. As of 2018, it is the world's largest association of technical professionals with more than 423,000 members in over 160 countries around the world. Its objectives are the educational and technical advancement of electrical and electronics engineering, telecommunications, computer science engineering and allied disciplines. Most IEEE members are electrical and electronics engineers, but the organization's wide scope of interests has attracted people in other disciplines as well. Mission of IEEE is to foster technological innovation and excellence for benefit of humanity. IEEE will be essential to the global technical community and to technical professionals everywhere, and be universally recognized for the contributions of technology and of technical professionals in improving global conditions.

## **ABOUT IEEE SB GEC PALAKKAD**

IEEE Student Branch of Government Engineering College Palakkad is a professional organisation dedicated to innovate advancing technologies and excel it for the benefit of humanity. We helps to amplify the aptitude of each and every student in the institute as well as the locality in becoming more comfortable with the developing technology. We try to provide an ideal platform for young engineers to exhibit and nourish their technical skills by providing a technical home.

## **ABOUT EXCELSIOR**

A 2-day technical extravaganza hosted by IEEE SB GEC Palakkad, the inception of which has served as a pioneer in technological empowerment. Catering to inquisitive minds, Excelsior is a culmination of several interactive keynotes by some of the best minds in technology as well as workshops based on peer learning model developed by Tinkerhub. This technical festivity seeks to provide latitude for networking with young bright minds and illicit techno enthusiasm. Being the first of many more IEEE fests to be hosted at GEC Palakkad, Excelsior envisions to break barriers of expectations and set a glorious standard that its successors vie to match.
